Directors' Report

The Directors of CCI Asset Management Limited (the company) have pleasure in presenting their report on the financial statements of the company for the financial year ended 30 June 2019.

DIVIDENDS

Directors resolved that no dividend be paid in respect of the year ended 30 June 2019 (2018: $ Nil).

CORPORATE INFORMATION

CCI Asset Management Limited is a company limited by shares that is incorporated and domiciled in Australia. Its ultimate parent entity is Catholic Church Insurance Limited.

Principal activities

The principal activity of the company during the year was to act as trustee and manager of the CCI Asset Management Trusts and Individually Mandated Accounts, which are available for investment by organisations of the Catholic Church in Australia.

Employees

Catholic Church Insurance Limited (the parent entity) provides the employees to administer the company. The associated labour costs are expensed to CCI Asset Management Limited on commercial terms and conditions.

REVIEW AND RESULTS OF OPERATIONS

	2019	2018
	$	$
Profit/(Loss) for the year	302,975	226,332

The company received $2,283,150 (2018: $1,766,891) in income during the period whilst incurring $1,980,175 (2018: $1,540,559) in expenses from ordinary activities.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

As part of CCIAM's value proposition, we offer a profit sharing program where a proportion of surpluses generated by CCIAM is intended to be returned to clients as distributions. This is our second year of the program and we are pleased to advise that the Board has approved an amount of $78,000 (2018: $49,322) to be distributed back to our clients.

SIGNIFICANT EVENTS AFTER THE BALANCE DATE

There has not been any matter or circumstance, other than that referred to in the financial statements or notes thereto, that has arisen since the end of the financial year that has significantly affected, or may significantly affect the operations of the entity, the results of those operations, or the state of affairs of the consolidated entity in future financial years.

ENVIRONMENTAL REGULATION AND PERFORMANCE

The operations of the company are not subject to any particular or significant environmental regulation under the law of the Commonwealth or of a State or Territory. There have been no significant breaches of any other environmental requirements applicable to the company.

DIRECTORS' SHAREHOLDINGS

No Directors hold any shares in the company.

INDEMNIFICATION OF DIRECTORS

During the financial year, the company paid a premium in respect of a contract insuring the Directors of the company, the Company Secretary, and all executive officers of the company and of any related body corporate against a liability incurred as a Director, Company Secretary or executive officer to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

The company has not otherwise, during or since the financial year, indemnified or agreed to indemnify an officer or auditor of the company or of any related body corporate against a liability incurred as an officer or auditor.

INDEMNIFICATION OF AUDITORS

To the extent permitted by law, the Company has agreed to indemnify its auditors, Ernst & Young, as part of the terms of its audit engagement agreement against claims by third parties arising from the audit (for an unspecified amount). However this indemnity does not apply to any losses which are finally determined to have resulted from Ernst & Young negligence.

No payment has been made to indemnify Ernst & Young during or since the financial year.

DIRECTORS' BENEFITS

Since the end of the previous financial year, no Director of the company has received or become entitled to receive any benefit (other than a benefit included in the aggregate amount of emoluments received or due and receivable by Directors shown in the accounts).

AUDITOR'S INDEPENDENCE DECLARATION

The Directors have received a declaration from the auditors of CCI Asset Management Limited as attached after the Directors' report.

Signed in accordance with a resolution of the Directors.

J Fitzpatrick
Director

Melbourne, 4 September 2019

Auditor's Independence Declaration to the Directors of CCI Asset Management Limited

In relation to our audit of the financial report of CCI Asset Management Limited for the financial year ended 30 June 2019, to the best of my knowledge and belief, there have been no contraventions of the auditor independence requirements of the Corporations Act 2001 or any applicable code of professional conduct.

Notes to the Financial Statements
for the financial year ended 30 June 2019

1. **Corporate Information**

CCI Asset Management Limited is a company limited by shares that is incorporated and domiciled in Australia. The entity is also registered as a charity in accordance with the Australian Charities and Not-for-profits Commission Act 2012.

The nature of the operations and principal activities of the company are described in the director's report.

2. **Summary of significant accounting policies**

a) **Basis of preparation**

The financial report is a general purpose financial report that has been prepared in accordance with Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board, the Corporations Act 2001 and section 60 of the *Australian Charities and Not-for-profits Commission Regulation 2013*. The financial report has been prepared on an accruals basis and is based on historical costs.

The financial statements have been prepared on a going concern basis.

The financial report is presented in Australian dollars.

b) **Statement of compliance**

The financial report complies with Australian Accounting Standards and the Australian equivalent of International Financial Reporting Standards (IFRS) as issued by the International Accounting Standard board.

The accounting policies have been consistently applied, unless otherwise stated.

c) **Australia Accounting Standard new and amended effective during the year**

Australian Accounting Standards which have been issued or amended during the annual reporting period ending 30 June 2019 and have been applied in preparing the company's financial statements, where applicable. The nature of the impact of the application of these standards is disclosed.

Reference	Title	Summary	Application date of standard	Impact on CCIAM financial report	Application date for CCIAM
AASB 9, and relevant amending standards	Financial Instruments	AASB 9 replaces AASB 139 Financial Instruments: Recognition and Measurement. Except for certain trade receivables, an entity initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVTPL), transaction costs. Debt instruments are subsequently measured at FVTPL, amortised cost, or fair value through other comprehensive income (FVOCI), on the basis of their contractual cash flows and the business model under which the debt instruments are held. There is a fair value option (FVO) that allows financial assets on initial recognition to be designated as FVTPL if that eliminates or significantly reduces an accounting mismatch. Equity instruments are generally measured at FVTPL. However, entities have an irrevocable option on an instrument-by-instrument basis to present changes in the fair value of non-trading instruments in other comprehensive income (OCI) without subsequent reclassification to profit or loss. For financial liabilities designated as FVTPL using the FVO, the amount of change in the fair value of such financial liabilities that is attributable to changes in credit risk must be presented in OCI. The remainder of the change in fair value is presented in profit or loss, unless presentation in OCI of the fair value change in respect of the liability's credit risk would create or enlarge an accounting mismatch in profit or loss. All other AASB 139 classification and measurement requirements for financial liabilities have been carried forward into AASB 9, including the embedded derivative separation rules and the criteria for using the FVO. The incurred credit loss model in AASB 139 has been replaced with an expected credit loss model in AASB 9. The requirements for hedge accounting have been amended to more closely align hedge accounting with risk management, establish a more principle-based approach to hedge accounting and address inconsistencies in the hedge accounting model in AASB 139.	1 January 2018	These amendments will have no direct impact on the amounts included in the company's financial statements.	1 July 2018

d) Australian Accounting Standards issued but not yet effective

Australian Accounting Standards which have recently been issued or amended but are not yet effective for the annual reporting period ending 30 June 2019 have not been applied in preparing the company's financial statements. The nature of the impact of the application of these standards is disclosed only. The company will apply these standards for the annual reporting periods beginning on or after the operative dates as set out on the following page.

AASB 15, and relevant amending standards	Revenue from Contracts with Customers	AASB 15 replaces all existing revenue requirements in Australian Accounting Standards(AASB 111 Construction Contracts, AASB 118 Revenue, AASB Interpretation 13 Customer Loyalty Programmes, AASB Interpretation 15 Agreements for the Construction of Real Estate, AASB Interpretation 18 Transfers of Assets from Customers and AASB Interpretation 131 Revenue – Barter Transactions Involving Advertising Services) and applies to all revenue arising from contracts with customers, unless the contracts are in the scope of other standards, such as AASB 117 Leases (or AASB 16 Leases, once applied). The core principle of AASB 15 is that an entity recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which an entity expects to be entitled in exchange for those goods or services. An entity recognises revenue in accordance with the core principle by applying the following steps: ► Step 1: Identify the contract(s) with a customer ► Step 2: Identify the performance obligations in the contract ► Step 3: Determine the transaction price ► Step 4: Allocate the transaction price to the performance obligations in the contract ► Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation.	1 January 2019	CCIAM have undertaken a detailed review of the impact of AASB 15 (Revenue from Contracts with Customers). In assessing the current method of revenue recognition, the review covered the identification of contracts and performance obligations as well as a determination of the transaction price and performance obligations. The outcome of the review was that the current method of revenue recognition is in line with the requirements of AASB 15 and that there is no material impact on the accounting treatment.'	1 July 2019

Reference	Title	Summary	Application date of standard	Impact on CCIAM financial report	Application date for CCI
AASB 16	*Leases*	AASB 16 requires lessees to account for all leases under a single on-balance sheet model in a similar way to finance leases under AASB 117 Leases. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset. Lessees will be required to re-measure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognise the amount of the re-measurement of the lease liability as an adjustment to the right-of-use asset. Lessor accounting is substantially unchanged from today's accounting under AASB 117. Lessors will continue to classify all leases using the same classification principle as in AASB 117 and distinguish between two types of leases: operating and finance leases.	1 January 2019	Not Applicable	1 July 2019

e) **Income tax**

The company is exempt from the requirements of the Income Tax Assessment Act.

f) **Cash and cash equivalents**

For the purpose of the statement of cash flows, cash includes cash on hand with banks or financial institutions that are readily convertible to known amounts of cash.

g) **Revenue recognition**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

Management fees
Fees for managing the funds' investments and Individually Managed Accounts on behalf of clients are recognised as they accrue.

Interest income
Interest income is recognised as it accrues.

h) **Goods and Services Tax (GST)**

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense.

i) **Financial instruments**

i) Trade and other receivables

Trade debtors are recognised and measured at amortised cost using the effective interest rate (EIR) method, less impairment. An allowance for doubtful debts is made when there is objective evidence that the company will not be able to collect the debts. Bad debts are written off when identified.

ii) Trade and other Payables

Payables are carried at amortised cost and represent liabilities for goods and services provided to the company prior to the end of the financial year that are unpaid and arise when the company becomes obliged to make future payments in respect of the purchase of these goods and services. It also includes a provision for profit distributions back to clients.

j) **Catholic entity distribution**
A provision is made at balance date for the payment of a catholic entity distribution to investors in the CCIAM trusts and IMA's where certain criteria have been met. The amount allocated each year is approved by the Board of Directors.

3 Critical accounting estimates and judgements

There have been no critical accounting estimates or judgements made in preparing the financial statements.

4 Risk management

The Board is responsible for ensuring that risks, and also opportunities, are identified on a timely basis and that the company's objectives and activities are aligned with the risks and opportunities identified by the Board.

Some of the potential risks to the company are:

- Operational risk
- Interest rate risk
- Credit risk and
- Market risk.

The Board has a number of mechanisms in place to ensure that management's objectives and activities are aligned with the risks identified. These include the following:

- The maintenance and use of management information systems, which provide up to date, reliable data on the risks to which the business is exposed at any point in time
- Implementation of Board approved operating plans and budgets and Board monitoring of progress against these budgets
- Monitoring and overseeing the company's financial position
- Ensuring that compliance and risk management systems are in place
- Determining that satisfactory arrangements are in place for auditing the company
- Complying with statutory duties and obligations
- Ensuring that the company and its officers act legally, ethically and responsibly in all matters

a) Operational risk

Operational risk is the risk of loss arising from inadequate systems and controls, human error or management failure.

The company's exposure to operational risk is mitigated by maintaining a comprehensive system of internal controls, establishing systems and procedures to monitor transactions, positions and documentation, maintaining key backup procedures, and undertaking regular contingency planning.

Financial risks (credit and interest risks) are considered in note 5.

5 Financial risk

The operating activities of the company expose it to market, credit and liquidity risks.

a) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices.

(i) Interest rate risk

The following table details the company's exposure to interest rate risk at 30 June:

2019	Average Interest Rate	Less than 1 Year	1 – 5 Years	More than 5 Years	Non – Interest Bearing	Total
		$	$	$	$	$

b) Credit risk

Credit risk is the risk that one party to a financial instrument will cause financial loss to the other party by failing to discharge an obligation.

(i) Credit exposure

The financial assets and liabilities are stated in the balance sheet at the amount that best represents the maximum credit risk exposure at balance date.

The following tables provide information regarding the aggregate credit risk exposure of the company at the balance date in respect of the major classes of financial assets. There is no significant concentration of credit risk, as the company does not have any material credit risk exposure to any single debtor or group of debtors under financial instruments entered into by the company. The analysis classifies the assets according to Standard & Poor's counterparty credit ratings. AAA is the highest possible rating. Rated assets falling outside the range of AAA to BBB are classified as speculative grade.

Term Deposits	-	-	-	-	-	-
Receivables	-	-	-	-	589,818	589,818

The above tables should be read in conjunction with notes 7 and 8.

The carrying amounts of all the company's financial assets and financial liabilities at the balance sheet date approximate their fair values.

c) **Liquidity risk**

Liquidity risk is the risk that the company will encounter difficulties in meeting its obligations with financial liabilities.

The following tables summarises the maturity profile of financial liabilities of the company based on the remaining undiscounted contractual obligations.

2019	On demand $	Less than 3 months $	3 Months to 1 year $	1 to 5 years $	Greater than 5 years $	Total $

In the opinion of the Directors:

(a) the financial statements and notes of the company are in accordance with the *Corporations Act 2001* and the *Australian Charities and Not-for-profits Commission Act 2012*, including:

  (i) giving a true and fair view of the company's financial position as at 30 June 2019 and of its performance for the year ended on that date; and

  (ii) complying with Accounting Standards (including the Australian Accounting Interpretations), the *Corporations Regulations 2001* and the *Australian Charities and Not-for-profits Regulation 2013*;

(b) the financial statements and notes also comply with the Australian equivalents of International Financial Reporting Standards as disclosed in note 2(b); and

(c) there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

On behalf of the Board
